Startup Founder with 3 years of experience building SaaS products in Developer Tools, Hiring, Web-3 and Retail Tech Startups, which generated over $ 3.5 Million in revenue. I run a community of 1,20,000+ Developers, providing tools to show proof of work. I also raised $ 150K (₹ 1.1 Cr) in Venture Capital for my startup in 2nd year of college.

EXPERIENCE

Co-Founder & Chief Product Officer   **May 2021 – Present**

CometLabs   *Hyderabad, India*

- Led development of a cloud-based IDE, similar to Replit, utilizing GenAI for intricate code analysis and project evaluations.
- Secured INR 1.1 Cr preseed funding, served a thriving community of 120K developers & 18,000 active users.
- Built product from UI design to MVP; later supervised an 11-member engineering team.
- Established partnerships with GitHub and Vercel for seamless integrations to enhance the developer experience.
- Adopted Agile workflows & Sprint Planning using tools like Confluence, Jira, Notion, Miro, Trello, etc.
- Outperformed competitors: 40% speedier load, 25% better efficiency, and 20% less browser memory usage within 8 months.

Associate Product Manager   **Dec 2020 – Sep 2021**

Hapramp Studios   *Gurgaon, India*

- Headed Creator Studio division: launching 3 major updates & initiating 4 beta tests within a 5-month timeframe.
- Drafted PRDs for Binance Wallet & KYC integration, achieving 50K+ DAU and boosting GTV.
- Conducted A/B Testing to improve performance, amplifying ASPU by 37%, Token Sales by 42% while trimming TTV by 20%.
- Coordinated closely with a 13-member Tech & Design team to ensure timely project delivery.
- Explored new revenue models by introducing NFT Minting after analyzing Web3 Market, increased revenue by 12%.

Product Manager Intern & FullStack Developer   **May 2020 – Dec 2020**

Moptra Infotech   *Noida/Remote, India*

- Collaborated with Devs to refine a supply chain tool, enhancing user satisfaction by 15%.
- Integrated Amplitude, Google Analytics & CRM with e-commerce platforms, grew engagement by 12%.
- Led design sprints, optimized JIRA product roadmaps, and crafted PRDs based on user feedback.
- Conducted A/B tests on the e-commerce platform, driving a 10% boost in user conversions.
